DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 9/5/2008 have been fully considered but they are not persuasive.
2. The Office contacted Applicant's representative on 9/24/2008 and 9/30/2008 in an attempt to remedy the outstanding 101 rejection. The Office reiterated that an apparatus as claimed was software *per se*.
3. All elements in claims 13, 14, and 26-29 are performed by software functions as claimed. No hardware is present in the claims. The storing means in claims 26-29 appears to be a save feature in the software, and not the hardware upon which the information would be saved. Applicant appears to claim the option to store data, and not the actual storing itself.

Allowable Subject Matter

4. Claims 1, 3-5, and 15-18 are allowed.
5. The following is a statement of reasons for the indication of allowable subject matter: Applicant claims the transmission of heartbeat acknowledgment messages with a sequence of state information transmitted within the heartbeat acknowledgement message, and retrieving state information for heartbeat acknowledgement messages. This is not taught in the prior art.

Claim Rejections - 35 USC § 101

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
7. Claims 13, 24, and 26-29 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 13, 24, and 26-29 are directed toward a computer node, without any tangible structure. A computer node is broadly readable upon computer software without any tangible embodiments.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
